THOUGHT FOR THE WEEK:

God Moves in Mysterious Ways

No matter how young or old you are, you can either try this at home or just imagine it. Take an office chair (chair on wheels) and stack some heavy books on top of the seat. Now push the chair forward really fast and then stop! What happens to the books?? They keep going naturally and fall off the front of the chair onto the floor, right?

So what has this got to do with God moving in Mysterious Ways? Well, what is the science behind the books falling? Something called 'inertia'. Basically, nothing starts moving or stops in God's Universe unless something makes it move or stop. The same can be said for ourselves! We cannot walk unless we 'push' ourselves to walk by our brain sending signals to our leg muscles to contract. We push and pull ourselves out of bed, to go to school, to work or write, type, play etc.

Inertia had another meaning too....inactivity. One of my favourite stories to illustrate just this is Queen Esther. She could have been overcome by 'inertia' and chosen not to act when her people were threatened, but instead, she acted. She overcame inertia (inactivity) to dared to act when others wouldn't. The King's heart could not have been moved if Esther had not pushed herself to confront the King.

Our service to God conquers inertia. By choosing to act us instead of doing nothing, we are allowing God to give us the power to do great things for Him.
