Our first Sabbath in 2013. When looking back at 2012, people talk about records: Olympic records and weather records. When looking forward to 2013, people think about resolutions and goals for the year. Exercise programs, diets, and work objectives. What about our relationships? And most importantly, where are we with God? Have you thought about your spiritual life and where you want to be with God in the new year?

While we think of our goals for the new year, it may also help to examine our priorities. Are we making time for the most important or just the important. In the last KID (Kids in Discipleship) program, we looked at the life of Solomon and his priorities. We all know the story, but maybe we need to think more carefully about how to stay close to God. Then we can share with our families and friends so they can know God better too.

In thinking about our spiritual priorities at church where does Sabbath School place on your list? How can it help you grow spiritually and how can you contribute? How important is Sabbath School for our children and young people? To understand this better, why don’t you visit one of the children’s classes and see what really happens there?

Let’s ask for God’s wisdom and guidance as we reflect on our priorities and resolutions for 2013.
